

## July Newsletter

Why are so many Trusts signing up with Savience? There are plenty of good reasons. And this month we're highlighting three in particular...

### Opening more doors in Northern Ireland

Following several successful roll outs in Southern Ireland earlier this year, we're delighted to announce a new Savience implementation in the North. The state-of-the-art New Downe Hospital covering the Downpatrick and Lisburn areas is set to deploy CheckIn, Reception Manager and Patient Call products.

### A match made in heaven

Savience and New Downe Hospital: it's a great fit. New Downe Hospital which opens its doors in July 2009 is at the leading edge of technology and innovation. That's reflected as much in its external architecture and internal layout as in its voluble commitment to patient care.

The £64m purpose built facility has been designed to create a welcoming environment for patients. Right from the start it was intended that the Hospital should feature self intuitive routes to ease the patient path from reception to point of care. The Savience CheckIn and Patient Call products will help reinforce a sense of place. For all its high-tech sheen and gloss, this is still a hub of the local community. And the influence of the community and its architecture can be felt throughout. So practically, it is important that this extends to patients feeling at home and being able to find their way around quickly and easily.

More than that, Savience product sets will add to the sense of this being a stimulating environment. Planners were keen to create an involving experience for patients and staff. And Savience technology helps patients interact with their surroundings in a more active way.

The three storey building is set to be the most progressive facility in the region, providing a variety of patient care:

- + Consultant led Emergency Department
- + X-ray
- + Children's Centre
- + Outpatients
- + Maternity(including Midwifery Led Unit)
- + Nursing Rapid Response Service
- + Inpatient wards
- + Day Procedure Unit
- + Rehabilitation
- + Mental Health & Psychiatry of Old Age
- + GP Out of Hours

### **Why are so many Trusts signing up with Savience?**

Reason 1: Savience product sets work in harmony with your requirements. New Downe is a good example of how Savience supports overarching concepts from the planning stages of new build facilities.

### **Royal Wolverhampton NHS Trust goes live**

With a duty of care that spreads over four counties (the Black Country, Staffordshire, Shropshire and Worcestershire) the Royal Wolverhampton NHS Trust is the latest hospital to commit to the Savience CheckIn system. Initially the system will be implemented in the busy dermatology department. Once the results have been assessed, it is expected that a roll out to other departments will follow.

### **Why are so many Trusts signing up with Savience?**

Reason 2: Savience eases the burden on over-stretched departments by automating the check-in procedure and simplifying clinical pathways. This helps larger Trusts manage capacity better, and helps all Trusts meet their targets.

### **Saviencie in action at Hillingdon Hospital**

Hillingdon Hospital hosted a hugely successful Open Day at their state-of-the-art Diagnostic Treatment Centre on June 4<sup>th</sup>. 27 representatives from 9 Trusts saw first hand the Savience product range hard at work and delivering benefits to patients in a live environment.

Watch out for further open days and events which we're lining up for the autumn...

### **Coming soon – our next user group meeting**

We're looking forward to the next meeting of the Savience User Group at the Victoria Hospital in Blackpool on July 15<sup>th</sup> 2009. There's a comprehensive agenda lined up, including all the latest updates to the core product.

There's also an opportunity for users to put forward any product enhancement proposals. We respect your role in ensuring our products continue to evolve to meet your specific needs as well as the ever changing needs of the NHS. And we'll look forward to hearing what you've got to say.

If you would like to know more, just email [david.warburton@savience.com](mailto:david.warburton@savience.com)

### **Why are so many Trusts signing up with Savience?**

Reason 3: We listen. And we devise solutions that work in your best interests. We deal in evolving technology that continues to evolve in line with your requirements.
